

## BATTLE IS RAGING IN SOUTH AFRICA

Boers Under Dewet and  
British with Knox Are  
Fighting Desperately.

## KRUGER LEAVES PARIS

Sends Word That He Hopes  
to Visit United States  
Very Soon.

## ALL ENGLAND IS STIRRED UP

Cape Town, Dec. 1.—A big battle  
is raging between the Boers under  
Dewet and the British under Knox at  
Rouxville according to unofficial ad-  
vices received here today. Dewet's  
capture is reported to be imminent.

Kruger Goes to Cologne.  
Paris, Dec. 1.—Kruger left Paris this  
afternoon for Cologne on a special  
train. The Boer president left the  
hotel at one o'clock and was driven  
direct to the station. A small but en-  
thusiastic crowd gathered in the  
streets and cheered as the carriage  
passed.

Several delegations of Boer sym-  
patizers were at the station to wish  
Kruger God-speed and he was present-  
ed with floral tributes and printed me-  
morial wishing him success. Kruger  
made a brief speech of thanks in  
which he said that he was delighted  
and encouraged by his Paris recep-  
tion.

Will Visit U. S.  
Just before the train started Kruger  
sent word through the correspond-  
ents to the Americans that he hoped  
before many months to visit the United  
States and that he was confident  
the great republic will favor the little  
African republic as much as France  
has done.

Wave of Indignation.  
London, Dec. 1.—A wave of indigna-  
tion has swept over England at the  
reverses sustained by the British arms  
at Dewetdorp and a storm of criti-  
cism of the military operations in  
South Africa has been evoked.

Today the Statist proposes that the  
government should begin negotiations  
with Commandant General Botha  
and General DeWet to bring the war  
to a close. As the Boer leaders  
might misunderstand the motive of an  
overture from the military authori-  
ties it will suggest that the highest  
civil authority in Cape Town should  
begin the negotiations.

Kitchener Now in Command.  
The war office announced that Lord  
Roberts handed over the command of  
the British troops in South Africa to  
Lord Kitchener.

It is further asserted that the Queen  
approves Lord Kitchener's promotion  
to be lieutenant general, with the  
rank of general, while in command in  
South Africa.

## FAMOUS TROTTER ABBOT IS SOLD

Believed That He Was Bought for Boss  
Crocker—Brought \$26,500  
At Auction.

New York, Dec. 1.—The Abbott, the  
champion trotter of the world, with a  
record of 2:03 1/4, went under the  
hammer yesterday for \$26,500, and may  
soon become the property of Richard  
Crocker, czar of Tammany hall. The  
ostensible purchaser is John J. Scan-  
nell, fire commissioner of Greater New  
York and a close friend of the Tam-  
many boss. According to a persis-  
tent rumor, Mr. Scannell is simply a  
representative of a syndicate of Tam-  
many men who purchased the Abbott  
to give to their chief. Attempts to  
verify this story were unsuccessful  
yet it receives much credence among  
horsemen.

## ISTHMIAN CANAL REPORT IS READY

Does Not Favor Either of Two Routes,  
But Gives Merits and Objec-  
tions to Each.

Washington, D. C., Dec. 1.—The pre-  
liminary report of the Isthmian canal  
commission has been completed and  
is now in the hands of the president.  
It was given to him yesterday after-  
noon by Admiral Walker, the presi-  
dent of the commission.

Despite determined efforts to keep  
its contents secret it is learned from  
reliable sources that it is a neutral  
report. It makes no recommendations  
as to which route should be selected.  
It says that although surveys have  
been made of other routes, the only  
two really worth considering are the  
so-called Nicaragua and Panama  
routes. Of these the commission af-  
ter a careful consideration of the mer-  
its of each finds itself unable to say  
which is the better for the United

States. From an engineering and  
physical standpoint the commission  
finds that each of these routes is equally  
feasible.

The report also states that it will  
be impossible for the United States to  
acquire absolute ownership and con-  
trol of either route. Diplomatic and  
constitutional difficulties stand in the  
way in Nicaragua and Costa Rica, and  
the Panama company desires to retain  
an interest in its canal.

## LOVE AT 40 MILES AN HOUR.

Chicago Man and Girl Meet on the  
Train, Become Engaged and Marry.

East St. Louis, Ill., Dec. 1.—L. C.  
Carlton, a Chicago merchant, and Miss  
M. E. Davies, also from Chicago, have  
established a new record in the matter  
of wooing and wedding. They met first  
on the Air Line train enroute to St.  
Louis, becoming acquainted on the  
way, falling in love at sight, and, con-  
cluding that they were affinities, de-  
cided to wed, all in an eight hour run.

When the train pulled in here last  
evening Mr. Carlton and Miss Davies  
stepped off and inquired the way to  
a justice. They were directed to the  
office of Judge P. F. McCane. A li-  
cense was procured. The Judge pro-  
nounced the words that made them  
man and wife.

## FAT STOCK SHOW TO OPEN MONDAY

VISITORS WERE ADMITTED TO  
DAY TO SEE ANIMALS.

Cattle and Horses Valued at Over  
\$2,000,000 Will Be on Exhibition—  
Arrangements to Care for 200,000  
Strangers, Besides a Large Throng  
of Chicago People.

Chicago, December 1.—The doors of  
the international fat stock show opened  
to the public this morning. Two  
million dollars' worth of stock will  
compete for \$75,000 worth of prizes.  
This is the largest collection of fat  
cattle ever assembled in competition  
for the largest premium ever offered  
in this country. Sheep, swine, horses  
and cattle drawn from every breeding  
district in the United States and Can-  
ada and even from across the water,  
are on exhibition.

Stockmen from all over the United  
States are here, and South American  
republics and European monarchies  
have sent representatives to witness  
this colossal object lesson in feeding  
the world.

## Formal Opening Monday Night.

The formal opening of the exhibit  
will not be until Monday night when  
heralded by the blare of brass bands  
R. W. Hall of Texas will deliver the  
address of the occasion. John W.  
Springer will speak, and the day's  
prize winners will parade. The even-  
ing parade will be a regular feature  
of the show, and a coach and draft  
horse show will be held every even-  
ing in addition to the regular pro-  
gram.

It is hard to believe that the ponder-  
ous cattle shown are the bearers of  
the gentle names that fill the pages of  
the catalogue. Shaggy Angus, mottled  
Hereford, and stubby Durhams an-  
swer to the names of sun-  
flower, black bird, Emerson,  
Glady's of Dalmeny, and Queen of the  
Louans.

Twenty-five winners from the Kan-  
sas City show have arrived to com-  
pete. P. E. Hughes of Liverpool has  
brought a large string from England  
to compete with such Americans as  
Dale, the great bull that sold for  
\$7,500 in the Dexter park pavilion.

## Students to Take Part.

One of the features of the week will  
be the educational efforts of the asso-  
ciation. Over 500 students in the ag-  
ricultural colleges will be present and  
classes have been provided for stu-  
dent judges. The college whose de-  
cision comes nearest to that of the of-  
ficial will be the winner. The whole  
show is arranged to make clear the  
wisdom of breeding for pure strains,  
both for quantity, quality and econ-  
omy.

## DO AWAY WITH TELEGRAPH.

Northern Pacific Railway May Use the  
Telephone in Its Business.

St. Paul, Minn., Dec. 1.—The Nor-  
thern Pacific railway has decided to  
substitute the telephone for the pre-  
sent telegraph system of the road and  
will build and equip long distance and  
divisional telephone lines to take the  
place of the telegraph whenever it is  
deemed practicable. The officials of  
the road believe that most of the tele-  
graphing that is now in the Traffic de-  
partment can be done as well if not  
better, performed by telephone.

## Very Pleasant Stag Party.

A very pleasant stag party was given  
last night by Fred Viney, 154 Min-  
eral Point avenue to about twenty of  
his gentleman friends in honor of his  
birthday. The evening was very  
pleasantly spent with music and cards.  
Choice refreshments were served and  
enjoyed by all. Mr. Viney was pre-  
sented with a pair of handsome op-  
era glasses by his guests as a memento  
of the occasion.

## FARMER'S FIELD HAS GROWN MUCH WIDER

EXPORT OF HIS PRODUCTS IS  
STEADILY INCREASING.

Secretary Wilson Reviews Work of  
the Year in His Department—Solution  
of the Problem of Irrigation  
Is Deemed Vital—Important Inves-  
tigations Are Under Way.

Washington, Dec. 1.—In his annual  
report, made public today, Secretary  
Wilson of the Department of Agri-  
culture gives a lengthy and interesting  
review of the operations of his de-  
partment.

Much stress is laid on the contin-  
ued improvement of the weather bu-  
reau service and the value of its fore-  
casts. Successful experiments have  
been made with wireless telegraphy.  
Treating Hog Cholera.

The work of preparing serum for  
treating hog cholera and swine  
plague and experiments in treating  
thereof are continued, with results  
which, while they do not justify defi-  
nite conclusions as yet are suffi-  
ciently encouraging to justify contin-  
ued experiments, including some on  
entirely new lines. Considerable space  
is given to the consideration of tub-  
erculosis. A great increase in the dis-  
ease is noted in the principal cities  
of Europe, especially in those  
whence American breeders desire to  
obtain animals for improving their  
stock.

Experimental shipments of dairy  
products are still continued, and  
shipments of butter have been ex-  
tended to Cuba and Porto Rico. The  
secretary earnestly recommends an  
inspection of dairy products designed  
for export.

National legislation on the subject  
is urged as essential to supplement the  
work done by the several states. Elab-  
orate work in the investigation of  
food adulteration has been continued.

Secretary Wilson notes a keener  
and wider public interest in forestry.  
The total requests for working plans  
for forest preserves at the close of  
the year exceeded 50,000,000 acres,  
of which two and a half millions were  
private land. Tree planting plans were  
made for fifty-nine applicants.

## Regarding Better Roads.

There is much inquiry in all sec-  
tions regarding better roads and bet-  
ter methods of building them, and  
much has been done in the past year  
in building experimental roads.

Under the head of the section of for-  
eign markets the report says that the  
study of the markets abroad with  
special reference to extending the  
demands therein for the agricultural  
products of the United States has  
been prosecuted with zeal and intel-  
ligence. During the past fiscal year  
Cuba, Porto Rico, the Hawaiian  
Islands and the Philippines furnished  
a market for \$45,000,000 of our do-  
mestic products. Five years ago these  
islands took but \$13,000,000 worth.

## SCOFIELD NAMES THREE INSPECTORS

Senator McGillivray Heads the Com-  
mittee to Inspect State Penal  
and Reform Institutions.

Madison, Wis., Dec. 1.—Governor  
Scofield last night appointed the leg-  
islative committee for the biennial in-  
spection of the charitable, penal and  
reformatory institutions of the state.  
The committee is composed as fol-  
lows: Senator J. J. McGillivray of  
Black River Falls, chairman, and As-  
semblymen Philo A. Orton of Darlington  
and James Johnson of Mukwonago.  
This committee is required to report to  
the legislature at the approaching ses-  
sion.

## BROWN ARRESTED IN SOUTH AMERICA

Defaulting Cashier of the Newport, Ky.,  
Bank in Custody—Charged With  
Stealing \$200,000.

New York, Dec. 1.—A cable bulletin  
reports the arrest of Frank M.  
Brown, a port in South America yester-  
day. Brown was cashier of the  
German National bank at Newport,  
Ky., and is alleged to have embezzled  
two hundred thousand dollars. The  
dispatch does not state in which city  
Brown was captured. He was arrest-  
ed while disembarking from a steam-  
er on which he had fled from this  
country.

## GERMANS CUT OFF BY THE CHINESE

Expedition to Kalgan Meet Opposition  
and Abandon Their Dead  
and Wounded.

London, Dec. 1.—A Shanghai dis-  
patch says that the Kalgan expedi-  
tion has met with a reverse. It is  
believed that the party of Germans  
were cut off by the Chinese and obli-  
ged to abandon their dead and wound-  
ed.

## SAID THAT WILDE DIED OF SUICIDE

REPORT TO THAT EFFECT IS  
CURRENT IN CITY OF PARIS.

Once Famous Aesthete Expires in Ob-  
scure Paris Hotel—Hidden Behind  
an Assumed Name He Ends His  
Days in Seclusion—Long Illness  
From Spinal Meningitis.

Paris, Dec. 1.—George Wilde, the  
English playwright and author once  
received in honor in the highest so-  
ciety circles of Great Britain and the  
continent and noted the world over for  
his brilliant, if erotic, works, died  
Thursday night in this city in poverty  
and obscurity and under an assumed  
name.

The Journal says that it is rumored  
that Wilde committed suicide.

The once aesthete, who until he went  
to an English prison in 1894 under a  
two years' sentence had known little  
of the rougher side of life, spent the  
last few months of his life in actual  
wretchedness. Under the name of  
Mammoth he occupied lodging in a  
small hotel in the Rue des Beaux Arts  
for weeks he has suffered from men-  
ingitis. A few hours before his de-  
mise he was received into the Catholic  
church. He was found dead by the  
land lady.

Lord Alfred Douglas was with Wilde  
on the night preceding his death and  
was one of the first to reach the hotel  
after the body was discovered on the  
following day.

## Scandal Ruined His Life.

The great scandal that ruined Wilde  
came about through an action brought  
by the Marquis of Queensbury, whose  
motive was the protection of his son,  
Lord Alfred Douglas, over whom Wilde  
had exercised an evil influence. The  
evidence at Wilde's trial shocked the  
civilized world and covered him with  
disgrace which it was not possible  
for him to outlive. He was sentenced  
to prison for two years.

At the expiration of his sentence he  
quitted England. It was later learned  
that he had settled in Paris. From the  
pet of society he had become the most  
despised of social outcasts. Recent  
reports from Paris were to the effect  
that he was living in abject poverty.

## Ends His Life in Poverty.

After his losing conflict with the  
English courts Wilde made his home  
in Paris. He hoped to rebuild his  
shattered fortunes, but the fates were  
against him and he encountered many  
hardships. He struggled along until  
he reached the point of absolute desti-  
tution and then sickness came upon  
him.

Friends of former days sought him  
out and kept him alive by charities,  
and finally last year sent him to the  
Hospital La Salpêtrière where it was  
learned that he must undergo an opera-  
tion. He survived the shock, but his  
system was so weak that he became  
a ready prey to the fresh malady that  
afflicted him.

Wilde's wife secured a divorce from  
him after he was disgraced and tak-  
ing her children Cyril and Vivian,  
left the Wilde residence in London.  
She died in April 1898, on the Riviera.

## SULTAN OF TURKEY DECIDES TO PAY

Will Promptly Settle the Bill Held  
Against Him by the United  
States

Washington, D. C., Dec. 1.—Lloyd  
Griscom, Consul at Constantinople, has  
sent a cablegram to the state depart-  
ment saying that the Turkish govern-  
ment has indicated its purpose of pay-  
ing the United States the indemnity  
so long demanded for the Armenian  
outrages, but not on the basis of a com-  
pensation through the building of a  
Turkish war vessel in the United  
States. The details of the Sultan's  
plan of settlement are not known, but  
it is the understanding of the depart-  
ment that the end of the long diplo-  
matic controversy is in sight.

Mr. Griscom's message has not been  
made public but it is said to indicate  
that the \$90,000 will be paid soon and  
that a definite promise to that effect  
has been obtained from the Porte.

## MILWAUKEE CHEMIST CAUSES A SCARE

Says Bottle of Nitro-glycerine in the Fed-  
eral Building May Blow  
Up Structure.

Milwaukee, Wis., Dec. 1.—Some of  
the evidence of the case of the govern-  
ment against "Dad" Flynn and  
"Lefty" Fitzgerald, the alleged post-  
office robbers, is highly sensational, in  
fact, that, according to a chemist, it  
is liable to scatter the federal build-  
ing, where it is stored all over Lake  
Michigan. It is contained in a bot-  
tle about the size of a small whisky  
flask, and is nitro-glycerine of a high  
proof. It was found on the two men  
when they were captured and sub-  
mitted to Davenport Fisher, the anal-  
ytical chemist. He informed the post-  
office inspectors that the stuff in the

bottle was nitro-glycerine, and a spoon-  
ful of it would be sufficient to blow up  
a building, while the entire amount  
would toss the federal building in the  
air.

That was interesting, but not alarm-  
ing, but the next statement of the  
chemist was sensational. He said  
that after a certain time nitro-glycer-  
ine became decomposed and then it  
was liable to explode of its own ac-  
cord. This stage was easily detected  
by the formation of a red scum on  
the top of the liquid. Postoffice In-  
spector Bird is now anxiously watch-  
ing the bottle for the appearance of  
the threatening red scum, while using  
all the persuasion that he is capable  
of to get the case before the court as  
soon as possible. Dangerous as the  
mixture is it cannot well be disposed  
of for it is an important part of the  
evidence in the case, and until that  
comes to trial Mr. Bird will have to  
watch his dangerous witness very  
carefully.

Misses Elizabeth and Aloina Walsh  
pleasantly entertained a few of their  
friends on Thanksgiving evening at  
their home, 166 Lynn street. At seven  
o'clock refreshments were served and  
the balance of the evening was pleas-  
antly spent in dancing and games.

## MISS EMMA HADDEN, MR. EDWIN C. BATES

An Old Time Well Known Janes-  
ville Boy Married at Peckskill,  
N. Y., Thursday, Nov. 22.

Miss Edna Hadden and Mr. Edward  
E. Bates were married Thursday,  
November 22, at the home of the  
bride at Peckskill, N. Y., Rev. R. E.  
Wilson of the First M. E. church of-  
ficiating. The bride was gowned in  
white organdie over white silk and  
carried a bouquet of Marshall Neil  
roses. She was attended by her  
cousin, Mrs. Edward M. Lyman as  
matron of honor. Mr. Lyman was  
the groom's best man. After the cere-  
mony and the wedding supper Mr.  
and Mrs. Bates left for Plainfield, N.  
J., where the groom is in business.  
The bride received many beautiful  
and costly gifts among them a dia-  
mond brooch and a gold watch and  
chain from the groom.

Mr. Bates is the son of A. C. Bates,  
an old resident of this city, and the  
brother of J. W. Bates of Beloit. He  
was reared in Janesville and is well-  
known throughout the community.

## HAS CAUSED A STIR AMONG POLITICIANS

Someone Has Made a Guess as to Ap-  
pointments La Follette is  
Likely to Make.

Milwaukee, Dec. 1.—An afternoon  
paper announces that four of the ap-  
pointments which Governor-elect La-  
Follette will have to make have been  
decided upon. These are: State  
oil inspector, John Strange of Neenah;  
adjutant general, General George  
E. Bryant of Madison; Private secre-  
tary, J. C. Murphy of Milwaukee;  
superintendent of public property,  
William C. Duke of Milwaukee.

The publication has caused a stir  
among the politicians, who have been  
anxiously waiting for the return of  
Mr. La Follette from Indiana Springs,  
where he has been resting for the past  
three weeks. It is now said that he  
will not return to the state before  
December 10. In the meantime the  
appointments as announced will be  
taken with many grains of salt.

The information is understood to  
have been brought by a man who  
made the trip to the springs to see  
Mr. La Follette. Those who ought  
to know something of Governor-elect  
La Follette's intentions are inclined  
to the opinion that the alleged ap-  
pointments are simply guesses as to  
what may happen and it is left for  
the future to demonstrate whether or  
not the guesses are good.

## TURKS CENSOR SMYRNA NEWS

Nothing Reported of Battleship Ken-  
tucky—Settlement Expected.

London, Dec. 1.—Nothing in regard  
to the United States battleship Ken-  
tucky is coming from Smyrna. Au-  
thorities there are evidently stopping  
dispatches.

Constantinople, Nov. 28.—The opin-  
ion is expressed in diplomatic circles  
that the American claims, arising from  
the Armenian massacres, may be re-  
garded as practically settled. An or-  
der providing for the building of a  
cruiser in the United States has been  
officially promulgated.

The question of the consulate at  
Harpoot remains open, the porte per-  
sisting in its refusal to grant an ex-  
equatur to Dr. Thomas H. Norton.  
However, the presence of the United  
States battleship Kentucky at Smyrna  
in support of the representations of  
the American legation, taken in con-  
junction with the settlement of all  
other claims, leads the legation to  
hope for an early arrangement of all  
differences.

## Samuel Morrill Seriously Ill.

Berlin, Dec. 1.—Samuel Morrill,  
third secretary of the United States  
embassy at Berlin, is seriously ill.

## AMERICA'S CHINESE POLICY IS BEST

RUSSIA, FRANCE AND JAPAN  
HAVE FALLEN INTO LINE

Those Three Powers Have Already  
Signed a New Agreement of Moder-  
ation—Great Britain and Germany  
Holding Out, But are Expected to  
Join the Concert.

Washington, Dec. 1.—For the sec-  
ond time American diplomacy has  
won a great world victory, for the sec-  
ond time the powers of Europe are,  
more or less willingly, consenting to  
follow American leadership.

The Chinese policy of Secretary Hay  
is about to be adopted by all the pow-  
ers interested in that great problem.  
The policy has already received the  
support of the majority of the six  
great powers represented in the inter-  
national concert, and today the news  
is that within a week the other two  
powers will signify their acceptance of  
the American proposals.

## Russia, France and Japan.

Secretary Hay now has in his pos-  
session the written acceptance of the  
following powers: Russia, France and  
Japan. Add to this list the United  
States and four of the six great pow-  
ers will be found supporting the policy  
of moderation and sanity, the policy  
of inflicting upon China such terms  
as China can meet, the policy of going  
ahead toward the settlement in a ra-  
tional manner, as contradistinguished  
from the policy of making demands  
which cannot be fulfilled and which  
can only lead to further trouble.

## Britain and Germany Slow.

As yet neither Germany nor Great  
Britain has signified its acceptance  
of the American proposals, but nei-  
ther power has rejected them, and there  
are strong indications that both will  
accept within a few days. With their  
pledged support of the Washington  
policy harmony will again be re-  
stored, and the world may hope for  
some actual progress on the adjust-  
ment of the seemingly interminable  
Chinese complications.

## WILL BUILD SIX BIG PAPER MILLS

Wisconsin Capitalists Are Preparing  
Plans to Add to the Paper  
Making Industry.

Milwaukee, Dec. 1.—Wisconsin cap-  
italists, some of them Milwaukeeans,  
are said to be interested in six pro-  
positions to build paper and pulp mills.  
At a low estimate, the cost of these  
mills if all are erected, will be \$1,200,-  
000 and they will have an output of  
about 210 tons of paper daily. One of  
the mills is to have four machines  
and another but one, and the estimate  
given is on the supposition that the  
other four mills will have but one ma-  
chine each. If they were to have  
two machines each, the estimate would  
be increased to about \$1,800,000 and  
the amount of the product to 310 tons.

## SORROW OF A STATE OVER DAVIS' DEATH

Burial of the Minnesota Senator Held  
In St. Paul Today—Simple  
Funeral Services.

St. Paul, Minn., Dec. 1.—The funeral  
of Senator Davis was held this morn-  
ing. The services were simple in  
the extreme. Senators Cullom,  
Hansborough, Spooner, Carter, Nelson  
and Pettigrew attended. The house  
was represented by the entire Minne-  
sota delegation except Tawney. Busi-  
ness in the city was suspended and all  
flags were at half mast. In many of  
the Minnesota towns services were  
held on the hour of the funeral.

## DOMESTIC ANIMALS IN ENCLOSURES

Statistics from the Census Bureau of  
Horses, Cows, &c., Not on  
Farms and Ranges.

Washington, D. C., Dec. 1.—The  
census bureau issued a bulletin giv-  
ing the results of the enumeration of  
the domestic animals in enclosures,  
but not on farms or ranges. The  
1,878,207 barns or enclosures report-  
ing domestic animals, which was sub-  
stantially one-third of the total num-  
ber of farms in the United States  
contained 1,466,970, neat cattle 2,833,  
877 horses, 116,115 mules, 12,870 asses,  
156,470 sheep, 1,592,861 swine and  
47,652 goats.

Horses and mules and neat cattle,  
including dairy cows, are least num-  
erous in the larger cities and more  
numerous in the smaller ones. Sheep  
and swine show the reverse. Their  
greater number is due to the large  
stock yards and packing houses.

For cities with over 100,000 inhabi-  
tants Kansas City and Memphis re-  
port the largest relative number of  
horses and mules respectively; Chi-  
cago of sheep; Indianapolis of swine

## WANTS STATE LAW FOR VACCINATION

IMPORTANT BILL TO BE PRESENTED THIS WINTER.

State Board of Health Will Seek Legislation—Proximity of Smallpox on All Sides Makes a Strong Measure Necessary, Says Dr. Wingate—Want Control of Water Supply.

At its annual session in Madison early in January, the State Board of Health and Vital Statistics will decide just what legislation it will seek this winter. It is certain to ask the enactment of several important laws, one of them making vaccination compulsory and another giving the board control over water supplies.

It also wants more stringent regulations for the suppression of animal tuberculosis, more effective means of collecting vital statistics and an increase of its appropriation from \$5,500 to at least \$10,000. Dr. U. O. B. Wingate, secretary of the board, said yesterday that the board would undoubtedly ask for the passage of a law giving it authority to compel people at its discretion to be vaccinated.

**Massachusetts Vaccination Law.** "We ought to have a vaccination law like that of Massachusetts," said Dr. Wingate to a Milwaukee Sentinel reporter. "There the state board can force people to submit to vaccination whenever it believes there is reason to fear an outbreak of the disease. Germany has a compulsory vaccination law which works admirably. We have smallpox all around us now, and I shouldn't be surprised to see a violent epidemic of it this winter. Since the Supreme court knocked out our law on this subject five years ago, very few persons in this state have been vaccinated."

"We shall ask the legislature to give us control of water supplies. Much typhoid fever is caused by contaminated drinking water."

**Tuberculosis in Animals.** "Our animal tuberculosis law does not work satisfactorily. As it stands now only animals suspected of having the disease are tested. All dairy cows should be tested, but the state veterinarian hasn't help enough to do the work. We think that the state should not be compelled to pay a man because he is unfortunate, as it does now the owner of an animal killed because it has tuberculosis. The state pays the owner two-thirds of the appraised value of his diseased animal and then kills it. This method is not only expensive, but it also affords opportunity for fraud."

**Poisonous Hemlock Plant.** The board's annual report, which will be issued in January, will contain some valuable information regarding the poisonous hemlock plant that caused the death of a child at Oconomowoc last July. Fred Ruschhaupt, a Milwaukee botanist and chemist, analyzed the plant and found it contained a deadly poison not attributed to it heretofore. It grows in marshy land and frequently poisons water used by cattle. Its scientific name is *Cicuta maculata*, but it is commonly called "water hemlock," "wild hemlock," "spotted parsley," "snake weed," "beaver poison," "cowbane," and "muskrat weed." The report will describe this plant and give the best antidotes to counteract its poison.

Prof. H. L. Russell will also make a report on the cases of anthrax poisoning that occurred in the northern part of the state several months ago.

## TWENTIETH CENTURY CLUB.

Affirmative Won in a Capital and Labor Discussion.

The meeting of the Twentieth Century Literary and Social club of the First M. E. church was well attended last night. Archie Crawford presided. After the opening devotional service A. Crawford sang a solo which was followed by an instrumental duet which was enthusiastically received. Mrs. H. E. Cary sang a solo; then came the debate.

The question discussed was: "Resolved that the country would be more prosperous without organized capital and labor." W. J. Cannon and E. A. Tolley were on the affirmative side

and M. H. Whitaker and N. J. Rothmeyer took the negative. Both sides were ably discussed but the affirmative won the day by a few points. A social hour followed the discussion. All were well pleased with the evening's entertainment.

## Window Breaker at Large.

A thriving industry in the Third ward is the breaking of windows in the Jefferson school building. It is no unusual circumstance to find four lights broken between the hours of leaving the building at night and the resuming of work in the morning. Most of the damage seems to be done with an air gun, and evidently is the work of a malicious child. To do target shooting at a public building, or at any building, for that matter, is not a practice that can be commended.

## TRADING RESUMED IN MODERATE WAY

Latest Tobacco Sales Show a Decline of About One Cent in Prices—Blackrot Damage.

A few buyers have taken the field again since the farmers have commenced to handle the new crop, and trading has been resumed in a moderate way, says the Wisconsin Tobacco Reporter. The late sales, however, show a decline in prices over the earlier transactions, the quotations being seven cents with an occasional rise for a fancy lot.

C. F. Tallard bought about 150 acres of the new crop in Vernon county during the week.

Old leaf is moving in a moderate way. A San Francisco dealer picked up several hundred cases in the market during the week. F. S. Baines sold 830 cs of '99 and 350cs '98 and purchased 475cs from local packers the past week. L. B. Carle & Son report the sale of about 500cs of old leaf to eastern parties.

A few deliveries of the new crop have been made during the week, enough to start the season's warehouse handling by a few packers in this market. Several others are arranging to open up their sorting rooms the coming week and this work will become quite general before the holidays.

The damage from black rot has become such a serious matter to packers the past few years that every theory that is advanced as to its cause or prevention is at once an interesting topic. No one has yet been able to satisfactorily explain the reasons for the cause of this damage or set up a theory that would stand the test of the varied experiences of packers in their attempt to grapple with the question. And yet every season more or less damage of this character, which in individual cases, amounts to serious losses to the packers.

A conservative estimate placed on the loss to packers of Wisconsin in the 1899 crop, names the amount at not less than \$100,000. This is an enormous sum to take out of the pockets of packers, and in some cases figure a loss instead of a profit to the dealers on their investment in that crop. All kinds of experiments have been carried on by packers each season to avoid this damage, some of which have proven fairly successful and others have not been. All are contributing something to the sum of knowledge that will eventually lead to a tangible method of evading losses from this source in years to come.

GUARDING AGAINST FIRE.

**Every Precaution to Be Taken at the  
Pan-American Exposition.**

There are two fire houses upon the grounds of the Pan-American Exposition at Buffalo, N. Y., which are fully equipped with the apparatus and men necessary to fight any outbreak of fire upon the grounds.

In addition to this there are chemical fire extinguishers in all of the buildings. These are of the same type used at the World's fair at Chicago and are attached to the wall on the interior of the building. A cog on the bearing of the reel releases a valve which turns on the water in case of fire. It is only necessary to unreeel the hose and thus turn on a stream which can be directed upon the blaze without a moment's delay. In this way every precaution is to be taken to prevent the occurrence of any fire and consequent destruction of valuable property.

## GRAVEYARD SENTIMENT.

"Here's a dollar; put some fresh sod around the base and clean up the lot." The old man turned away from the sexton, and glancing back read on the face of the newly erected monument, that represented an outlay of several hundred dollars. "Sacred to the memory of my dear wife, who departed this life of suffering, in hope of the life eternal. May she rest in peace." That's a good sentiment, he said, and that's a good monument, and cost a lot of money. People will stop talking now and say, "Well, the old man has shown respect to his wife's memory," and then he stepped into his carriage and drove down town to order a suit of clothes for his second marriage, that was to come off in two weeks.

A boy, who had been an interested spectator, watched the retreating figure, and said indignantly half aloud "the old reprobate; talk about a life of suffering, that's no lie, and mother deserved better things. 'May she rest in peace.' Well if she does it will be the first peaceful rest for a long, long time. If the old skinflint had spent half the money for her comfort that he has for her monument, she wouldn't be lying there under the sod, and I wouldn't be out here shedding bitter tears over her grave." Going back to the mound he placed a bunch of wild flowers on the grave and turned away with a heavy heart, because of the great sorrow and loss that had come to his young life.

The boy had discovered a great truth, and in honest but righteous indignation, had expressed the sentiment in his blunt and boyish way.

Dotted all over the cemeteries of the land are little mounds, marked by costly shafts and monuments, dedicated to the memory of wives and mothers whose lives have been sacrificed prematurely by neglect worse than cruelty. These patient women have been martyrs of the highest type. They have not unfrequently endured infidelity, and indifference, but have seen the husband whom they had promised to love and obey, drift away until the home was more lonely than the great outside world.

Have you ever discovered the conditions of the wife and mother in this kind of a home?

She has been married for a year. The first baby has come to make more sacred the ties of wedlock, and as she sings a lullaby to the little stranger while she waits in the twilight for the coming of the father and husband, she thinks of the home of her girlhood, and wonders with just a shadow of misgiving, if she made a mistake in leaving it; but the thought vanishes with the step at the door, and when John enters, she is all smiles, and with a cheery voice, and waiting for the kiss that is sometimes of late neglected, says: "Hello, John, come and see how cute baby is." And then the love of her heart is driven back, and she recoils with a little feeling of fear when John says: "Oh, bother the kid; I'm tired and want my supper."

The baby is turned over to the nurse and she enters the dining room and sits through a meal that is ominously quiet, and then listens with forebodings to John's step as he closes the door and hurries down the walk to his club.

The long hours of the evening drag along and there dawns upon her fully for the first time the fact that she is neglected, and that in spite of love and sacrifice the home is losing its attraction for the man by whose side she is destined to walk through many weary years. She may rebel and resent the indignity, or she may submit and patiently endure the caprice and insults of the man not worthy the name of husband and father. In either case she is standing on the threshold of a married life that contains much of heart ache and disappointment, destitute of the love that means everything to the wife and mother in the home.

The years go by, and wealth is accumulated, but the wealth of love is lacking. The home is endured for appearance sake. At forty the wife has lost her identity, and is prematurely old. At fifty she is in her grave, with a monument blasphemously dedicated to her memory by the man who murdered her.

Graveyard sentiment, under such conditions—and they are not imaginary—is a burlesque, and the monument is a reminder of negligence and cruelty, of which no man can afford to be proud.

The time to help our friends and loved ones, is when they are with us. Far better the neglected grave than the neglected life. The woman who gives the wealth of her love to the man who promises to protect her in all the varied experiences of life, is entitled to more than board and a wardrobe. If the husband appre-

ciates in any degree the sacredness of the home, and how much it means to the wife he will be careful to cherish the love that first won him. When this is done, the bond strengthens as age advances, and long before a granite monument is necessary the union is so complete that it presents a bulwark that nothing can successfully assail.

The pleasantest sight this side of the pearly gates is an old man and an old woman who for half a century have traveled the pathway of life together. Have you ever noticed how much they look alike, how much they act alike, in fact, how much they are alike in so many ways? They have sacrificed for each other, have planned and worked together, have shared each other's hopes and fears until their lives have blended and united.

This kind of a home represents love expressed in every-day life. If the wife is called out of it first, no monument is necessary to remind the public that the husband reveres her memory. He has supported her declining years with the same love and thoughtful consideration that won her heart in girlhood, and as they separate near the end of the journey, the same hope that has inspired them for fifty years or more cheers them with the promise of another life just beyond, crowned with full fruition.

There is too much graveyard sentiment expressed on cold marble, and too little love and sympathy expressed by warm and loving hearts to the friends about us, while they are with us.

## RELATION OF THE POWERS TO CHINA

QUESTION CONSIDERED BY THE CURRENT HISTORY CLUB.

A. E. Matheson Handled the Subject in a Very Able Manner—Explains the Meaning of "Open Door"—Christian Missionaries Have Done Much for China.

The Current History Class met last evening in the lecture room of the Court Street M. E. church under the leadership of Miss Bessie Gorham. The first number on the program was a piano solo by Miss Packard which was well executed.

Mr. A. E. Matheson was scheduled to speak on the Relation of the Powers to China and he handled the subject in a very able manner. He explained at length how Portugal in the sixteenth century and France, Japan, Russia and Germany since then had acquired a certain quasi sovereignty over portions of China. In this way Macao was ceded to Portugal, the island of Hong Kong and the Yang Tse valley to Great Britain, the territory surrounding Tong King to France with other cessions and privileges in '98 and '99, the island of Formosa and Port Arthur to Russia, who is now casting a covetous eye upon Manchuria and Mongolia.

Germany not wishing to run behind the others in Chinese possibilities, holds a 99-year lease of the province of Shan Tung. These cessions—no cessions in the absolute sense, however—prove that China is not sovereign and independent in the full sense of those terms. This arrangement is naturally very displeasing to the Chinese, as it would be to us if any foreign power gained and maintained a foothold on our coast.

Another fact made prominent was the establishment of consular courts in China by outside nations, by which cases at law in which foreigners are interested are tried instead of in the Chinese courts. The real status of the treaty ports also received a good deal of attention.

The "open door" Mr. Matheson explained to mean that international agreement by which all trading nations would enjoy certain privileges in landing their merchandise in the ports of China. Of all the great powers the United States stands firmly for the "open door" only, and asks for not one foot of territory.

Russia is the power most in the favor of Li Hung Chang, although Russia's strong arms are trying to close around Manchuria and Mongolia. Russia with her enormous territory has practically no seacoast. Port Arthur, her port on the Pacific is ice bound for many months during the year, and she is evidently looking for a seaport and a port far south of Port Arthur. One thought that the speaker made emphatic was the probability that the Pacific, rather than the Atlantic, would be the great waterway of the future.

Mr. Matheson maintained that the Christian missionaries in China had done more for its enlightenment than the nations they represented, and if China rises to meet her opportunities it will be through their effort. When asked if the encroachments of other nations were not likely to increase he replied that if the powers would agree to a fair arrangement now, if the empress dowager would be restrained from political interference, the emperor placed firmly on the throne and China developed as she might be through intercourse with western nations, the integrity of the empire could be maintained and China take her place among the great powers of the world.

The session closed with a pleasing vocal solo by Miss Van Akin.

## REAR END COLLISION

Two Trains on Madison Division of Northwestern Road Clash at Jefferson Junction.

A caboose and two cars were burned, and an engine and four cars ditched by a rear end collision between two trains on the Madison division of the Northwestern road at Jefferson Junction yesterday morning at 6 o'clock. Engineer C. E. Brown of the rear train sustained a fracture of his leg in the jump from his engine. Both of the trains were specials, and the second left Milwaukee shortly after midnight, Thursday night. Conductor I. Laird and Engineer Thompson were in charge of the first train which pulled on a "Y" as the second approached. Engineer Brown did not see the first train on account of the escaping steam from his engine in time to stop his train.

When he saw the train ahead he shut off the steam and jumped. The engine and four empty cars on his train were ditched, and the caboose and the rear two cars on the first train. The stove in the caboose set fire to the wreckage, and three cars on the first train were destroyed. The rest of the train was pulled out of danger.

The 48th Highlanders, Canada's most noted military band, will attend the morning service at the Presbyterian church tomorrow in a body. The organization numbers forty-eight, many of whom have taken part in the Burns anniversary and other Scotch celebrations. They will meet with a cordial welcome in Janesville.

## PAUL GEHRKE WILL RUN RIVER STEAMER

Capt. Alex. Buchholz Has Sold Out and Will Go Into the Bakery Business.

After twenty-five years as proprietor of Crystal Springs Park, an up-river summer resort, Captain Alex. Buchholz has disposed of his interests in the park to Paul Gehrke, the North Main street bakeryman, who will conduct the business in the future.

Captain Buchholz has purchased the bakery business of Mr. Gehrke and will take possession in about two weeks. He will be assisted in the running of the bakery by his wife.

Captain Buchholz has a record that anyone could well feel proud of. During the twenty-five years that he has been engaged in carrying people up and down the river he has never had a bad accident. He built his first steamboat twenty-seven years ago and called it the Bower City Belle.

Since that time he has built several boats all of which have been successful.

When Captain Buchholz leaves the river the summer visitors to the up-river resorts will miss his pleasant face and willing ways. He was always ready to accommodate any of his patrons and made many a friend in that manner.

Paul Gehrke, the new proprietor has grown up from childhood in this city. He is a hustling young business man, well suited to successfully carry out an enterprise like the one he has purchased.

It is the intention of Mr. Gehrke to entirely remodel the grounds and make numerous improvements upon the buildings of the park. He will commence work at once to put it in shape for the next summer's business and expects by the time that spring arrives to have a summer resort second to none in the country.

The steamboat will be repainted and overhauled and the machinery put in first class shape for the opening of navigation.

The many friends of Captain Buchholz and Mr. Gehrke will wish them success in their new enterprises.

Dr. Lord was forty-two years of age and leaves a wife and one son, Karl, to mourn his loss. He was born in Edgerton and has practiced medicine for the past nineteen years, his father, S. L. Lord, being a doctor before him. He was an honored member of the Masons and Modern Woodmen.

## MR. AND MRS. FARDY WERE SURPRISED

Last evening about 8 o'clock a procession might have been seen headed towards South Division street. There were about thirty people in the party and upon reaching the home of Mr. and Mrs. M. M. Fardy filed in and treated them to a genuine surprise.

The host and hostess gave their unbidden guests a hearty welcome and inquired what might be the cause of the gathering and were reminded that it was the twentieth anniversary of their marriage. The evening was pleasantly spent in playing progressive euchre after which a very tempting supper was served.

Before the guests departed they presented Mr. and Mrs. Fardy with a china tea set which will ever be highly prized by the recipients as a souvenir of their twentieth wedding anniversary and of the pleasant manner in which it was celebrated.

## THIEF TOOK ALL MONEY IN SIGHT

Northwestern Restaurant Again the Subject of Plunder by Robbers

—About \$57 is Missing.

For the third of fourth time in a few months the proprietor of the Northwestern restaurant or some of its employees have been robbed. The last robbery is much more serious than any of the former thefts. At the other times nothing of any great value was taken. This time the thief took all the money in sight—about \$57.

A short time ago Mrs. Shattuck hired a young man, a stranger to her to come and cook in the restaurant. The young man entered upon his duties and gave good satisfaction.

Wednesday night Mrs. Shattuck went to the Trueman's ball leaving the cook in charge. She returned home about four o'clock in the morning and had some words with the cook on account of his hiring extra help to assist him.

When she came down the next morning she found the cook gone and also the contents of the cash register amounting to about \$50. She thought that she would say nothing about her loss and would let the matter drop. Yesterday afternoon she wanted some money and went to an iron box that she kept under the counter to get it.

When she opened the box she was surprised to find that instead of there being about \$48 in the box there was only a few pennies left. Mrs. Shattuck at once notified Chief Hogan of her loss and gave him a description of the young man who gave his name as Claude Belmont.

A photograph that he had given to a young lady here in town was secured and forwarded to the Chicago police as he is supposed to have gone to that city on the 6:40 train on Thursday morning. The loss is a heavy one for Mrs. Shattuck as it represents the saving of quite a long period.

## SHARP DECLINE IN PRICE OF BUTTER

The Milwaukee butter market has experienced a severe set back and creamery grades have declined 3 cents a pound, from 27 to 24 cents, under the influence of larger receipts aided by the market falling off in the demand as the result of thenceforth advance in values.

When prices were advanced earlier in the month the demand began to fall off, buyers taking dairy and inferior grades of creamery instead of the finest qualities, while the poorer classes of people use lard and molasses as a substitute for butter. Stocks of butter are accumulating more rapidly than commission men desire, and the market is very weak, a further decline being anticipated.

## DAVIS' BODY LIES IN STATE

Escorted from the Home to Minnesota Capitol.

## AN IMPOSING PROCESSION.

Crowds Filled by the Coffin to Take Last Look at the Face of the Dead Senator—All Classes of Citizens in the Funeral Line.

St. Paul, Minn., Dec. 1.—A steady stream of people passed through the governor's room in the capitol, who lies in state the body of the late United States Senator Cushman Kellogg Davis. At an early hour the military and police escort marched to the family residence on Farrington avenue. A United States senator is entitled by virtue of his office to the escort of a major-general commanding, which in this state would mean, since the state has no cavalry, a regiment of infantry and a battalion of artillery. Such an escort could not be readily summoned and did not meet with the approval of the senator's family, who desired that the services be in every way as simple as possible.

The military escort, therefore, consisted of Company D of the First regiment, Minnesota national guard, under Capt. M. L. Merrill, most of whom were veterans of the Philippine campaign as members of the famous Thirtieth Minnesota volunteers, and a detachment of battery A, Minnesota national guard, under Lieut. Allen, who acted as body-bearers. Leaving the house at 9:30 o'clock the funeral procession, headed by mounted and foot detachments of police, marched slowly to the capitol, which was reached by 10 o'clock.

The coffin was carried between lines of mourning citizens into the building, where it was placed on a catafalque in the governor's south chamber. The main corridor of the building was draped simply in crape.

In the center of the chamber lay the body, underneath a chandelier hung with crape and smilax. Broad bands of crape stretched from the corners and walls of the room to the central chandelier, and similar drapings were hung over each of the broad doors. The tall windows were half-filled with smilax and ferns, while potted plants occupied the corners of the room.

The catafalque was draped with the national colors and the coffin was surrounded with floral tributes. At its head, on an easel, rested a portrait of the dead statesman; at its foot, the sword he carried through the civil war.

The escort formed in double at once and the waiting crowd passed slowly by the open coffin to take a last look at the man who had honored his state while serving it. All classes of society were in line and there was no diminution in the size of the crowds as they advanced. The military guard was frequently relieved in the governor's room, as also was the police guard at the outer doors.

## CHANGES NEW YORK CHARTER

Revision Commission Favors a Single-Headed Police Board.

New York, Dec. 1.—The Greater New York charter revision commissioners are busy preparing their final findings and putting their report in form. It is likely that the commission report will be handed to Gov. Roosevelt on Monday. He has intimated that it will be made public on the day he receives it.

The commissioners are said to have decided in favor of a single-headed police board, the reduction of the municipal legislature from two bodies to one, the establishment of a municipal printing plant and the giving of more power to the mayor in the matter of removing city officials. The findings of the commissioners are being carefully guarded. The new charter contains 140,000 words and the report accompanying it, 7,000. Most of the members of the commission are in favor of Gov. Roosevelt's recommendation for a single head of the police department and also for the educational department.

The important changes relating to the financial department are those suggested by Comptroller Coler, based upon his experience for the last three years.

## Show Sympathy with the Boers.

The Hague, Dec. 1.—During the course of the debate on the budget in the second chamber to-day Herr Kerdijk, radical, reiterated his opinion that the Netherlands ought to have declined the honor of convening the peace conference unless the Transvaal was admitted. He highly approved of the offer of the Dutch government to intervene between the Transvaal and Great Britain before the war, and especially commended the offer to place the Dutch cruiser Gelderland at Mr. Kruger's disposal to convey him from South Africa to Europe. This act, he said, had been applauded by the whole world. The remarks of Herr Kerdijk were greeted with loud cheers.

## OUR WORKING GIRLS.

### HOW TO HELP THEM.

Life to the most favored is not always full of sunshine, but to the average American girl or woman who is obliged to work for her living, and perhaps to help others at home, life is often a heavy drag in consequence of illness.

Women who work, especially those who are constantly on their feet, are peculiarly liable to the development of organic troubles, and should particularly heed the first manifestations, such as backache, pains in the lower limbs and lower part of the stomach, irregular and painful monthly periods, faintness, weakness, loss of appetite and sleep.

The young lady whose portrait we

publish herewith had all these symptoms, and in addition leucorrhoea, and was cured by Lydia E. Pinkham's Vegetable Compound. First, she wrote a letter to Mrs. Pinkham at Lynn, Mass., describing her trouble, received in reply accurate instructions what to do to get well, and now wishes Mrs. Pinkham to use her name to convince others that they may be cured as she was.

Mrs. Pinkham extends the same helping hand, free of charge or obligation, to every ailing woman in America. If you are sick you are foolish not to write to her, it costs you nothing, and she is sure to help you. Don't wait until it is too late—write to-day.

## BANDITS ON A STREET-CAR.

President of Commission Firm Robbed in Chicago.

## START A GENERAL FIGHT.

Twenty Passengers Aboard the Car, Three of Them Robbers—Conductor Knocked Down by the Outlaws—Sailmaker Benten and Robbed.

Chicago, Dec. 1.—Highwaymen held up and robbed three men last night in a daring manner. One man was robbed on a car, an old sailmaker was beaten into insensibility, and another man had a desperate fight with thugs. Edward J. Wright, president of the firm of Wright & McKenzie, commission merchants at No. 232 South Water street, was held up on an Ogden avenue electric car last night and robbed of a satchel containing \$117 in currency and checks valued at \$200. Mr. Wright was on his way to his home, No. 1121 Lawndale avenue, at the time of the robbery, and the attack upon him was made after the car had crossed the Randolph street viaduct. There were about twenty passengers on the car, and when Mr. Wright resisted the attack of the robbers a general fight followed. The conductor of the car ran to his assistance and struck one of the robbers a severe blow in the face. In return he was knocked down and all three of the robbers, one of them having secured possession of the satchel, jumped from the car and ran south in an alley near Canal street. No report of the affair was made to the police until Mr. Wright reached his home. He then went to the Lawndale police station and gave an account of the robbery.

### ASKS 58,924 AS ARMY.

Minimum Figures in the War Department's Measure.

Washington, Dec. 1.—Reorganization of the army, with a minimum strength of 58,924 and a maximum force 98,768, is provided for in a bill sent by Secretary Root to the house committee on military affairs and made public tonight. By the provisions of this measure it will rest with the president how many of the 37,842 men between the minimum and maximum totals are to be in the service at any time. In a letter to the committee Secretary Root calls attention to the fact that without further legislation the volunteers now in service must be discharged July 1, 1901, and the regular army reduced from 65,000 to 29,025 men. Then he gives his reasons for urging prompt action. "Without leaving much, if any margin, for sickness, such as the campaigns of the last two years warn us must be counted as an important factor in any occupation by the army, peaceful or warlike, of many of the islands which constitute the Philippine group," he writes, "the strength thus fixed must prove utterly inadequate, leaving out of consideration the service in the United States, in Porto Rico, and for the time being, in Cuba. The history of our Indian wars is replete with incidents showing the futility of sending an inadequate force to bring into subjection hostile natives such as those occupying the Philippine islands. It is presumed, under these conditions, that congress will provide a sufficient number of men to care for the coast defense fortifications, to provide garrisons for the more or less permanent posts on the Canadian and Mexican borders and those scattered through the Indian country, small garrisons in Porto Rico and Cuba, and a sufficient force in the Philippine islands to restore order and establish peaceful and stable conditions of government."

### A Body Blow.

"Look here," said the man on the street car who had been in a brown study for the last five minutes. "I don't know but that I made a mistake last night."

"How do you mean?" was asked.

"Why, a politician was blowing around to a crowd of us, and I called him a pedagogue and shut him up. Was pedagogue the word to use?"

"I should have said demagogue."

"By John, but that's the word I wanted to use, but got pedagogue in place of it. What is a pedagogue?"

"Well, a schoolteacher is often referred to by that term."

"Is that all? Why, the man turned as pale as death and sat down with a bump. He must have thought I was after him with a stuffed club and a dictionary."

His Limit.

Old Chap—Hello! Taken to an eye-glass, have you? Why don't you use a double one?

Chuckleton—Confound it, old man! I must keep one eye to see out of.—Chicago News.

### His Latest Book.

Towne—Wright's first book was very successful. He's very proud of it, I hear.

Brown—Ah, but he's prouder of his latest book.

Towne—Oh, has he written another?

Brown—No, but his first book has enabled him to acquire another, which is quite new to him. It's a bankbook.—Philadelphia Press.

Crew in Peril for Hours.  
Victoria, B. C., Dec. 1.—The crew of the bark Lord of the Isles has arrived at Auckland, New Zealand, after a terrible experience. The bark struck on North Kalkara spit and the men had to cling to the rigging for hours, finally drifting ashore on parts of the ship.

Baron Rothschild of Paris has bought from Castle Johannisberg on the Rhine 120 bottles of the best sparkling hock produced there at the tremendous price of \$20 a bottle. The castle was originally a convent of the Benedictines, who planted to the celebrated vineyards around it. After passing through the hands of Napoleon I., Marshal Kellermann and one of the emperors of Austria it was presented by the latter in 1814 to Prince Metternich, whose descendants still draw a large income from it.

## SCOTCH CELEBRATE ST. ANDREW'S DAY

About Eighty Members of the Rock County Caledonian Society Enjoy a Program and Supper.

About eighty members of the Rock County Caledonian society gathered at the society rooms last evening and celebrated St. Andrews day. A choice repast was served by Caterer Shurtleff and enjoyed by all.

After supper the tables were removed and the chairs placed for the musical and literary program. Dr. James Mills acted as president of the evening.

The program was opened with a song by Colonel E. O. Kimberly who responded to an encore. E. E. Van-Pool played a solo on the harmonica which was well received.

Archie Reid, Jr., gave a pleasing recitation. Miss Dollie MacLean gave a piano solo as did Miss Beach who responded to an encore. Miss Daisy MacLean sang a Scotch song and responded to an encore. George Skinner favored the society with a Scotch song and was loudly applauded. William Hodge, one of the charter members, sang a Scotch song which created great applause.

Colin C. MacLean read a description of the stone under the coronation chair in West Minister Abbey. Miss Beech followed with a piano selection after which Colin C. MacLean read an invitation to Robert Burns anniversary party given in this city in 1860. The names of the several committees were read and out of over thirty names only one is a member of the society alive and in this vicinity and that is William Hodge of the town of Janesville. This invitation has been preserved by Mrs. John Shortney of this city for over forty years. The reading of the names aroused many thoughts of olden times in the minds of the older members of the society at the meeting last evening.

After the program was finished the rooms were cleared of chairs and dancing was indulged in until midnight. Tuckwood's orchestra furnished the music for the dance. Those present report a jolly good time.

The committee of arrangements to which the success of the party was largely due was Peter Coldow, James Lamb, George Skinner, Dr. James Mills and David Brown.

Colonial Society Offers Prize.  
The German Colonial Society, at its meeting in Colbentz, offered a prize of 3,000 marks for the first finding of gutta-percha plants in the German colonies and transplanting them to one of the experiment stations or to the central station in Berlin.
